

It is my understanding that LPFM may be given priority over FM Translator service. If this happens, my family and countless others who benefit greatly from stations like K-LOVE, which uses the FM translator service, would lose a positive and uplifting family oriented radio broadcast. K-Love brings family values as well as the message of Hope, Love and Peace to those who need to hear the Good News. They give counsel to those in need and reach out to countless others through music and a positive message every hour. If LPFM is given priority over the Translator service, many families who are touched every day and many who have yet to listen to K-LOVE will be done a dis-service by the FCC.

Regards,
Mark Pobanz
